

Community Referral List

Referral:

We don't give referrals to one specific treatment center or detoxification unit. Instead, we can provide a list of any and all local treatment centers and not align or affiliate ourselves with one in particular, or we can inform members of generic treatment referral numbers, such as the National Treatment Referral Line in the United States.

If a caller has a local telephone directory, we can direct them to the services listed there. The same principle is true for suicide prevention numbers and other community service numbers.

Family members and loved ones of addicts frequently call our phonelines. Volunteers can provide numbers for Nar-Anon and Families Anonymous or other similar information. But remember that we don't recommend one program over another or offer our opinions about any of these programs.
